

## **NP open day 06 November 2016**

- 142 Visitors
- 139 Signed in
- 90 visitors over 64
- 49 visitors between age of 45-64
- 1 visitor 25-44

Post it note and other written comments to add to others that were collected:

### **Draft Vision**

- We can agree with the Visions but the devil is in the detail.

### **Housing for All**

- Concern about loss of space between WM and Pettistree. Prefer to use land with access to B1078 and then A12

### **Better Facilities and Services**

- We need Café and Inspirations to open on a Sunday
- GP Surgery and shops are essential
- Improvement to the Children's play area by the playing field
- Lack of street Lights
- The pump not only must be preserved but if it were drilled at the base and planted with ferns would deter the current dumping of waste in it.
- No golfers on playing fields please

### **Traffic and Parking**

- Stop HGV from Village between 8am – 4pm
- Stop any traffic over 7.5ton driving through the village centre.
- The need for more frequent bus service from WM to link with trains and buses in other areas.
- It's dangerous to enter Yew Tree Rise due to parking by non-residents. The bottom village area is a challenge as there are limited pull in places and no priority.
- Bus service needs to be more frequent throughout the year
- All the curbs are low leaving little protection for pedestrians if a driver makes a mistake.
- Provision for residents parking for Church Terrace in view of Lehmann House development
- Paths in main street very narrow
- Why not put in a one way system. We may need to add a road at the top of the village to link across from the school area to the main road?
- Why not try priority signs at narrow points in the village?

## **Discover Suffolk Walks leaflet**

There are places where the walkers got confused over the routes 1 and 4 out on the east edge of the village, Deben Marshes. Cheryl and Eric

Jenny Rose Palmer, also found the two routes confusing. Wishes to help with environment work parties.

Stephen Burkitt (from new HH site) Markers are needed on the walk marker posts. Some turnstiles/gates are not dog friendly or for less able bodied walkers.

There is chicken wire over the path near the Three Tuns.

A staggered safety barrier is needed to protect people walking out from the new footway onto Chapel Lane.

SB has a drone if we ever need photos from the air.

Anonymous comments regarding Hopkins Homes site Residents have ongoing issues with the homes which they are dealing with. More worrying matters concern poor drainage, lack of designed swale, lack of planting where this was meant to be, vandalism (by local young adult residents) to the play space so it is currently unusable and roughly fenced off.

Camping House Close House area is an important green space and adds to views of WM. Could a section of the field opposite Lehmann House be used for residents parking? Ensuring a balance between new housing and maintaining a rural village is key for WM. Sarah-Jane Eaton The Old Vicarage.
